Hepatitis C Infections Amongst HIV-Positive Gay Men Are Rising

ASK AT YOUR CLINIC ABOUT HEP C TESTING

For more information visit www.gmfa.org.uk/hepc

Hep C can be sexually transmitted by kissing, group fucking, sharing sex toys, sharing pots of lube or fucking without condoms. It can also be transmitted by sharing drug injection needles or snorting straws.

Hep C can cause serious liver disease and premature death.

Hep C often shows no symptoms. Early diagnosis and treatment are vital.

GMAF projects are developed by positive and negative volunteers.
