Take a step to feeling better by talking to a LGBT-friendly Counsellor.
Appointments are available in Glasgow City Centre.

Neil is experienced in working with LGBT+ clients and is person-centred. He describes himself as one of the first few counsellors who was gay and had an interest in counselling, which was one of the first ever charity set up in a hospital to help hiv patients.

The toll of the hiv epidemic is still affecting many people in Scotland. With the advent of PrEP, life is becoming easier for many. However, the stigma and discrimination still exists.
